

# AMBIT Practice Audit Tool v.2

## 1. Mentalization

	YES	NO
Have you maintained a mentalizing stance with the young person/family?		
Do you have a mentalized understanding of their difficulties?		

## 2. KeyWorker Relationship

	YES	NO
Has the keyworker developed a consistently attuned relationship with the young person?		
Has the team kept to all the arrangements and plans it has made with the young person and family?		
Would the young person call the keyworker or the team if they were worried?		

## 3. Keyworker well-connected to wider team

	YES	NO
Are you “checking in” regularly with other team members, as well as receiving regular supervision?		
Is it possible to consult and comment on each other’s practice in a sensitive, mentalized fashion?		
Are team members using phones in the field, using ‘Passed Outwards Discussion’ or ‘Thinking Together’ routines?		

## 4. Scaffolding existing relationships

	YES	NO
Have you identified resiliencies in existing relationships in your client’s informal network?		
In their Professional Network?		
Have you Care Planned work to strengthen these?		

## 5. Managing risk

	YES	NO
Have you completed/updated a risk assessment?		
Have you kept notes up to date?		
Have you kept to other governance protocols, or noted explicitly how and why you have had to diverge from these?		

## 6. Intervening in multiple domains

Across the whole professional network, which domains have interventions care-planned for them?	Deployed	Not yet deployed

## 7. Taking Responsibility for integration

	YES	NO
Have you done a Dis-integration grid?		
Have you done any “interpreting” of other agencies for the young person or family?		
Have you managed, hosted or encouraged any “connecting conversations” between different parts of the network?		

## 8. Respect local practice and expertise

	YES	NO
Is there evidence of unresolved inter-professional or inter-agency conflict in your practice?		
Is there evidence that you have acted to minimise this?		
Do team members hold respectful boundaries in discussions about other professionals?		

## 9. Respect for Evidence

	YES	NO
Have you completed an AIM or other outcomes measures?		
Have you consulted your team's local manual or other sources to identify best evidence-based practice relating to this case?		
With the whole team, have you manualized any particularly effective practice, or new learning, from this case?
